

Zymeworks Announces Participation in Upcoming Investor Conference

December 21, 2022

VANCOUVER, British Columbia--(BUSINESS WIRE)--Dec. 21, 2022-- Zymeworks Inc. (Nasdaq: ZYME), a clinical-stage biotechnology company developing novel, multifunctional biotherapeutics, today announced that management will participate in an upcoming investor conference:

- **JP Morgan Healthcare Conference.** Zymeworks' management will participate in one-on-one meetings on January 12th and a corporate presentation on January 12th at 10:30 am Pacific Time (PT).

All presentations and webcasts will be available on Zymeworks' website at <http://ir.zymeworks.com/events-and-presentations>.

About Zymeworks Inc.

Zymeworks is a global biotechnology company committed to the discovery, development, and commercialization of novel, multifunctional biotherapeutics. Zymeworks' mission is to make a meaningful difference for people impacted by difficult-to-treat cancers and other diseases. Zymeworks' complementary therapeutic platforms and fully integrated drug development engine provide the flexibility and compatibility to precisely engineer and develop highly differentiated antibody-based therapeutic candidates. Zymeworks engineered and developed zanidatamab, a HER2-targeted bispecific antibody using Zymeworks' proprietary Azymetric™ technology, which is expected to be commercialized globally by two partners: BeiGene in Asia Pacific (APAC) regions excluding Japan, and Jazz Pharmaceuticals globally excluding APAC. Zanidatamab is currently being evaluated in global Phase 1, Phase 2, and pivotal clinical trials as a best-in-class treatment for patients with HER2-expressing cancers. Zymeworks' next clinical candidate, zanidatamab zovodotin (ZW49), is a HER2-targeted bispecific antibody-drug conjugate (ADC) developed using Zymeworks' proprietary Azymetric™ and ZymeLink™ Auristatin technologies. Zanidatamab zovodotin is currently being evaluated in a Phase 1 clinical trial for patients with a variety of HER2-expressing cancers. Zymeworks is also advancing a deep pipeline of product candidates based on its experience and capabilities in both antibody-drug conjugates (ADC) and multispecific antibody therapeutics (MSAT). In addition to Zymeworks' wholly-owned pipeline, its therapeutic platforms have been further leveraged and validated in product development through strategic partnerships with global biopharmaceutical companies.
